# FORESTRY OFFICIALS ISSUE WARNING TO HUNTERS

## ATOMIC CHIEF DECLARES H-BOMB TESTS ESSENTIAL

### INFORMATION IS REQUIRED FOR DEFENSE

Battle Creek, Mich. (AP)—The nation's atomic chief said today hydrogen bomb tests must be continued not only to assure new weapons but to provide data needed for civilian survival under enemy attack.

Chairman Lewis L. Strauss of the Atomic Energy Commission, in a speech prepared for a joint U. S.-Canadian Civil Defense meeting, made no mention of Adlai Stevenson's proposal that this country take the lead in seeking an end to H-bomb tests.

"In order to provide our people with the guidance and instruction which may later save their lives," Strauss said, "the Civil Defense authorities need constant access to new and up-to-date information about the effects of nuclear weapons of all types and sizes."

He mentioned the effects of blast, heat and radiation among the data needed and said the Communists, "in sharp contrast to our policy and our practice," provide no such data on their own tests to help other nations protect their populations against nuclear war.

"Thus it becomes apparent," Strauss said, "that the survival of our own people and the civilian populations of the entire free world largely depends, from the civil defense viewpoint, on information which is derived from our own carefully controlled nuclear tests."

Without them, he added, the nation's "defenses would deteriorate, both in terms of civil defense and in the weapons which we need to repel any nuclear aggression."

Stevenson, the Democratic presidential nominee, has said continued tests "may cause the hurt."

### Elvis Won't Roll So Gets Rocked by Station Attendant

Memphis, Tenn. (AP)—A service station manager sported a beak of black eye today, souvenir of a brisk fist fight with Elvis (The Pelvis) Presley, the teen-agers' rock 'n' roll idol.

The fistcuffs flared yesterday when station manager Ed Hopper became irate because a crowd drawn by Presley and his \$10,000 car was blocking business at the gas pumps.

Presley, 21, Hopper, 42, and a late comer to the fight, station attendant Aubrey Brown, 21, 6-4, 220 pounds were free in \$52 bonds, all charged with assault and battery and disorderly conduct.

Presley, home for a few days from his rock 'n' roll tours, said the trouble started after he drove his glossy, white Continental Mark II into the downtown station and asked Hopper to check the gas tank for leaks.

A crowd began to assemble, blocking traffic. Hopper finally asked Presley to move on so the station could get back to normal business.

Presley, 6-1 and 185 pounds, jumped from the car and crossed a right that set Hopper 5-10, 175, back on his heels and cut a half-inch gash at the corner of his left eye.

### With the Candidates

Las Vegas, Nev. (AP)—Sen. Estes Kefauver today denounced as "monstrous nonsense" what he called Republican reasons for refusing to discuss an end to hydrogen bomb testing.

Hitting once more at President Eisenhower's "last word" on the bomb issue, the Democratic vice-presidential candidate said Eisenhower cannot be permitted to snuff out discussion of "the nightmare of a nuclear weapons race" between this nation and Russia.

In unusually strong words prepared for a Democratic luncheon rally here not far from the birthplace of the A-bomb, Kefauver made it clear the Democrats intended to keep on pressing an international H-bomb curb as a campaign issue.

### Community Chest Workers Will Meet Monday Evening

Volunteer workers in all divisions of Warren's Community Chest Red Feather campaign are reminded that the only general report meeting of the drive will be held in the Y.W.C.A. activities building Monday evening at 7:30 p. m.

Chest officials would like to have the cooperation of all workers in completing their solicitation work by Monday night so that a good report can be obtained. Returns may be turned in at Chest headquarters in the Warren Bank and Trust Building during the day by any worker who is unable to attend Monday evening's session.

Reports from workers have been coming in slowly and at noontime about 40% of the goal of \$28,000 has been reached. Most of this amount has come from Division A—Industrial and Special Gifts and, therefore, does not indicate a true picture as to the success of the drive so far.

Marion Pettigrew, Chest President, reminded again today that the goal of \$66,500 is 7 percent more than a year ago and hopes that all contributors will make an effort to help meet the increased amounts which support not one but ten service agencies in the Warren area.

The Chest campaign office, Room 309, Warren Bank and Trust Building will be open until 12 noon on Saturday for the convenience of workers wishing to turn in their completed solicitation results.

### Ike Delivering Major Talk in Los Angeles Tonight; Adlai Launches New Line of Attack

Lexington, Ky. (AP)—Adlai E. Stevenson launched a fresh attack on President Eisenhower's aides today.

It came as his campaign manager was saying the presidential race has reached the point where "neither side is gaining" and victory could be achieved by winning over the "undecided" voters.

Stevenson fired a new broadside at Vice President Nixon, Secretary of the Treasury Humphrey and several other Cabinet members.

The Democratic presidential nominee said in an advance text of a talk here that as one example "a vote for Eisenhower is a vote for Secretary of Agriculture Benson, whose friendship for the farmer depends on the proximity of an election."

Stevenson's return to the assault of the men around Eisenhower appeared to be related to a decision of his strategists that while they believe they have halted any political gains by the President, Stevenson's prospects also have leveled off.

James E. Finnegan, Stevenson's campaign manager, said in his opinion the presidential contest has reached the point where voters who list themselves as undecided will tip the balance next month.

Coming from a two-day swing through Michigan and Ohio, Stevenson ripped into Eisenhower's statement that Nixon is the "best qualified man to serve" as vice president.

#### RUSSELL FIRE DEPT EXTENDS THANKS

The Russell Fire Department would like to express its appreciation to the many people who contributed to the truck fund. Coin cards which were left at the homes will be picked up within the next two weeks. If anyone is missed, the cards may be left at the Crossroads, Pat Ferrie's Store, or Charles Fox Garage in Russell, at Hale's Store in Akeley, or Harry Chinberg's Store in Scandia.

### Harry Blasts Nixon in Speech at Gary, Indiana

Gary, Ind. (AP)—Former President Truman says the Republicans are offering a vice-presidential candidate "who could never possibly be elected president in his own right."

"They are offering a man who has neither the qualifications nor the standing in the eyes of his fellow citizens to hold that exalted office," Truman said in a campaign speech here last night.

He said Vice President Nixon has a voting record "consistently against the interests of the worker, the farmer and small business."

#### STAGES WALKOUT

Harrisburg, (AP)—A Republican representative walked out of a hearing by a special committee investigating the Delaware River Joint Toll Bridge Commission at the opening of the Thursday afternoon session, terming it a "kangaroo court." Rep. Metz (R-Pike) challenged the right of the committee to conduct hearings after

### SOVIET BOSS REPORTED TO BE IN WARSAW

Warsaw, Poland, (AP)—A responsible source said Nikita S. Khrushchev appeared in Warsaw today just as Wladislaw Gomulka, once jailed as a Titoist, was being triumphantly restored to a position of power in the Polish party.

The informant said the Soviet Communist boss took part in discussions of the opening of the Polish-party Central Committee and then went into conference with top-ranking Polish leaders.

This report said Khrushchev was apparently concerned that the speed of "de-Stalinization" in Poland might carry the country and its Communists much farther than the Kremlin intended earlier this year when it approved the doctrine of "many ways to socialism."

There was an official announcement that Khrushchev was here. Moscow dispatches made a point of noting that he was not present at the signing of an end-of-the-war declaration with Japan at the Kremlin today.

But if he was, it would be highly significant in view of an implicit threat in the Warsaw developments to the position of the defense minister the Russian installed in this country years ago.

Election of Gomulka and three of his closest associates—including the defense minister of pre-Communist days—was the first act of a fateful Central Committee meeting which opened this morning.

Polish Communist leaders were reported ready to demand independence from Moscow control—a step that could have historic importance for Poland's future and the whole East European bloc of countries now tied closely to Moscow.

### Overhead Railing Near Youngsville Will Be Delayed

County highway superintendent Chester Walker stated this morning that revamping of the dangerous bridge railing on the serpentine overhead just east of Youngsville would not be completed until next spring.

The approximate \$10,000 job had been bid and contract let when the contractor apparently felt he could not complete the job for new cement rails before winter weather set in. The district highway office in Franklin reported the bid was "thrown up" and the contractor lost his certified check in the bargain.

Bids will be reopened in the spring. The state has already appropriated money for the project. Elsewhere in the county highway department, Walker reports that crews were working Sunday to complete blacktopping of 1.95 miles of Follett Run road connecting to Yankee Bush road.

Also completed before the state-set October 15th deadline for paving were the road leading to the spillway at Chapman Dam and four miles of Fox Hill road leading east from Russell.

### State School Directors Meeting in Philadelphia

Philadelphia (AP)—The state's top school officials today urged school directors to prevent their programs from being "sabotaged" through "petty jealousies and community pressure groups."

Dr. Charles H. Boehm, superintendent of public instruction, in a speech prepared for the convention of the State School Directors Assn. did not mention any specific groups.

"You know there can be no substitute for good schools," he said.

#### LABOR CONVENTION

Planning to attend the 18th annual convention of Council 26, American Federation of State, County, and Municipal Employees, AFL-CIO, at Harrisburg this weekend as official delegates of Warren State Hospital Local 469 are Charles Hagan, president; Harold Check, Pete Scalse, Mr. and Mrs. Thomas Shoemaker. Jack Henry, of Warren State Hospital, will also be in attendance as treasurer of

### Pittsburgh Yeggs Do Yule Stealing Early

Pittsburgh (AP)—There are only 54 shopping days until Christmas but it won't do much good for eight Pittsburgh men jailed on charges of stealing \$35,000 worth of toys and setting up their own business.

The eight were nabbed yesterday after two rookie policemen saw three men taking merchandise from the warehouse of a wholesale toy firm here.

The officers said they questioned the trio and learned about a "toy store" in a nearby town. Arrows along a road even pointed to the store where, officers said, they found loot stolen over the past year and ready for sale at bargain prices.

### Three Dead in Crash of Plane In Antarctic

Washington (AP)—A Navy plane carrying advance units of this year's South Polar expedition crashed on the antarctic ice shelf yesterday, killing three men and injuring five others, three critically.

The Navy here said six other planes landed safely after the 2,250-mile flight from New Zealand to McMurdo Sound.

All were carrying advance units of a scientific expedition to the antarctic area for work in connection with the International Geophysical Year, in which many nations are sharing their scientific discoveries.

The Navy had only meager details of the crash but official dispatches did specify that it took place "while attempting a landing."

There was nothing here to indicate mechanical failure. That fact, plus reports of extremely bad weather, led officers to assume that lack of visibility was the cause.

Reports from New Zealand said the six planes which landed safely barely made the air strip before communications almost blanked out.

Additional flights from New Zealand were halted temporarily by a white-out blizzard, one of the antarctic's worst features.

### Nimrods Going to Woods for Small Game Saturday Urged To Exercise Extreme Caution

#### Watch The Woods, Please!

That request becomes vitally important tomorrow when small game season opens at 8 a. m. and thousands of hunters will enter woods which have not had a drop of rain in ten days.

The beautiful scenery which has made a glorious fall so far is now tinder dry. A careless toss of a cigarette could burn 100 square miles and leave Warren square-ly in the center of a valley surrounded by charred, ugly hills.

A joint warning has been issued by the United States Forest Service and the State Department of Forests and Waters that conditions in the adjacent woods are extremely serious so far as fire hazards are concerned.

Nimrods out for ruffed grouse, wild turkeys and squirrels have been asked to take note that "the fire situation for the opening of the hunting season is a menacing one, and every person entering the woods is urged to use extreme care to avoid starting fires."

The rainy summer just that it was bad weather for forest fires is now a grim reality.

According to E. M. "Bill" Bacon of the Forest Service and Charles Merroth, district forester, even persons at home can help fight the menace by burning as little as possible to keep down the "smaze" (smoke and haze). Each puff of smoke will draw instant attention from the fire towers throughout the Allegheny Forests.

Foresters also report the past two days have been "Class 4" periods which is just short of the maximum danger times of "Class 5". A brisk wind could put the area into a "Class 5" condition.

Hunters and others who journey into the woods are asked to butt cigarettes on rocks or in streams, use extreme caution with pipe smoking, break all snuffed matches in two. Even a bottle focusing properly in a hot sun could start a holocaust.

And for the hunters who are asked once again to use extreme caution about fires, here is the schedule:

One turkey per hunter is permitted during the entire season, which ends Nov. 24.

Hunting hours are from 7 a. m. to 5 p. m. Eastern Standard Time, and 8 to 6 DST.

The grouse season ends Nov. 24, also. The limit is two per day and eight for the season. The grouse are about as populous as last year and there may be more than usual in several sections, the Game Commission said.

Squirrels are very populous in most localities. Gray, black and fox squirrels may be taken at the rate of six per day and 24 for the season. Red squirrels may be shot in unlimited numbers beginning Oct. 20.

Game protectors advise hunters to handle their firearms with safety for themselves as well as others. Also they should make certain of their target, carry their guns on "safe" and wear bright caps and jackets.

With the opening day falling on a Saturday, school students will be out in large numbers, as well as hunters in general.

Fair and mild weather is promised.

### Fair Weather Prevails In Most of Nation Today

#### By The Associated Press

There were a few rainy areas but fair weather prevailed in most of the nation today.

The Atlantic coastal storm that brought heavy rain and strong winds from Maine to New Jersey this week moved out to sea yesterday. However, rain and showers continued during the night in the Carolinas. Clear skies were in prospect for the northeastern area.

Welcome rains which fell in drought areas of Texas were expected to spread northward into southern Kansas and southwestern Missouri during the day. Scattered showers also were forecast for the northern half of the Rockies, and more rain was the outlook for western Oregon and Washington.

#### EXTENDED FORECAST

By The Associated Press  
Extended forecast for Saturday, Oct. 20, through Wednesday, Oct. 24:

Western Penn'a., western New York, and West Virginia: Temperatures 2-7 degrees above normal, warmer Saturday afternoon and Sunday, turning cooler Monday and Tuesday, warmer Wednesday, showers Sunday and Sunday night and possibly Wednesday, totaling one-tenth to three-tenths inch.

### JORDAN CALLS UPON U. N. TO END INCIDENTS

United Nations, N. Y. (AP)—Jordan warned today it will take matters in its own hands unless the U. N. Security Council can stop alleged Israeli aggression immediately.

Calling for the strongest U. N. penalties short of military action, Jordan's ambassador, Abdul Monem Rifai, said:

"If the Council doesn't take action to stop the Israeli aggression right away, then my country will have to seek other methods by which it could insure the safety of our borders."

Rifai did not elaborate except to say "such a development, if it happens, will extend beyond our present local arrangements." This appeared to be a threat of large-scale military action, perhaps, with the aid of other Arab forces.

The Jordan representative told the Council that Israel's recent activities could not be discarded as border incidents.

Rifai said the whole trouble stemmed from an aggressive Israeli policy and that the border incidents "were premeditated and unprovoked."

"Israel," he said, "is destroying the very foundations of the general armistice agreement."

Rifai did not spell out what sort of penalties he wanted the Council to invoke. He urged action under Article 41 of the U. N. Charter which provides for the severance of diplomatic relations, economic restrictions and possible rupture of all outside communications.

Rifai was the first speaker as the Council opened its debate on Jordan and Israeli complaints growing out of the recent incidents which were reported fatal to 105 persons.

United Nations, N. Y. (AP)—Egyptian Foreign Minister Mahmoud Fawzi, heading home to report to President Nasser, says Egypt has already made written proposals to settle the Suez crisis and is ready to start negotiations with Britain and France.

The British and French governments have insisted that Egypt has come up with nothing concrete as a suitable counter to their demand for international control of the strategic waterway.

### Revenues From Nat'l Forest Set New Record

AP Special Washington Service

Washington (AP)—Increasing demand for furniture fashioned from black cherry wood has boosted federal revenues from government-owned timber stands in Pennsylvania.

The Forest Service reported today that income from timber sales in the Allegheny National Forest reached a record \$226,590 in the fiscal year ended June 30. In the previous fiscal year the revenue was \$187,138. And the higher income resulted from less sales — 12,920,000 board feet last fiscal year, 12,922,000 the year before.

The gain accelerated in July, August and September—sales totaled \$72,555, compared to \$48,591 for the same period last year.

Behind it all, said Forest Service officials, is the demand for black cherry wood, milled from the forests of northwestern Pennsylvania.

### First Presbyterians To Install Pastor Tonight

The Rev. Donald H. Spencer, recently arrived to take up his duties as minister of First Presbyterian church, will be formally installed as pastor on the parish in a service held in First Methodist church sanctuary at 7:45 this evening.

Erie Presbytery Moderator Guy L. Hughey, Bradford, will preside and a number of area and local pastors will be participating in the installation service.

An informal reception for Rev. Spencer and his wife will be held in the church parlors immediately following the service and all friends of the congregation are invited to share in both events.

### Pep Session Is Held in High Assembly for Saturday Game

Students at Warren High School enjoyed a double assembly this morning, the first part sponsored by the conservation classes, the

second, a pep session in preparation for the Saturday football game with the Ridgway Elfers. Cheerleaders and the Dragon Band led the group in several rousing cheers and songs.

For the early part of the program, David Marinoble introduced as speaker Robert D. Parlamon of Franklin, representing the Pennsylvania Game Commission. His topic was "Hunting and Safety."

Statistics and hunting facts included the statement there had been a record number of hunting permits issued this year; that

participant sport in Pennsylvania; that the season for squirrels, wild turkey, and ruffed grouse opens at 7:00 a. m. Saturday.

With these facts in mind, Mr. Parlamon said everyone ought to be hunting safely conscious. "Safe hunters are not born, but made," he stated. He remarked, also, that "lack of respect for firearms and carelessness in their use causes most hunting accidents and deaths."

In closing, the speaker gave some "do's and don'ts" for hunting: Wear bright clothes, look before shooting, hunt with the safety on at all times, and be considerate of others.

Mr. Parlamon was accompanied by William Overturf, Warren

In a brief message to the Trustees following his election, Dr. Williams declared that the prospect ahead for the nation is one of "change and challenge on many fronts" and that "universities face a greater opportunity for service than ever before."

## Motor Club Board Hears Report On Campaign to Save Route 6

A report on the visit of the "Save Route 6" Committee to Washington last week, was made to the board of governors of the Warren County Motor Club at the October meeting held Wednesday at the Blue & White Restaurant. Clifford Johnson, who made the trip with the delegation, stated that they received an encouraging reception from George Williams, acting deputy commissioner for engineering of the U. S. Bureau of Public Roads. The committee was informed that there would probably be no decision in the matter

for at least six months and probably longer, and that much thought and study would be given the project before a program was decided upon.

Reports showed the present membership of the Club to be 3240, as compared to 2938 in September, 1955. Road emergency was provided 57 members during the month and eight from out of town. Nine members received similar service from other clubs. Notary service was furnished 273 members and 69 non-members, and 105 routings were provided, 31 of which were given members of out of town clubs.

It was reported the floor furnaces for the office building have been delivered and will be installed immediately. New "Speed Zone" warning signs have been erected on Route 62, on the three lane through North Warren, it was stated.

Attention was called to the condition existing on the black top road on Route 27 between Youngsville and the Jackson Run road, and the Highway Department will be requested to erect signs warning that it is "dangerous when slippery". Curve signs will also be requested approaching York hill on the highway.

It was decided to suggest to borough officials that one-way parking be enforced in Franklin street, which is considered dangerous, especially during the busy hours of the day. President Quay McCune reported on the investigation of the new A.A.A. driver training equipment, which provides "simulated driving" for beginners. It will be studied further by the executive committee and instructors in schools that provide this course.

It was announced that the club will be represented at the annual meeting of the Roosevelt Highway Association at Wellshoro October 26. Cliff Johnson will be in attendance, along with Neil Culbertson and Charles R. Tranter, of the Warren Area Chamber of Commerce.

A two-day orientation workshop was held October 7 and 15 at Warren State Hospital for the incoming fall graduate nurse group. Twelve nurses attended the workshop which was designed to introduce the new graduate to the hospital and its function. Members from the Medical and Nursing Staff along with various department heads provided the information concerning their various departments and the service the hospital renders the hospitalized patient. The program was sponsored by the Nursing Department under the direction of Miss Harriett E. Morgan, Director of the Nursing Service.

A reception and tea was held from three to five P. M. on October 15 in conjunction with the orientation to introduce the new members of the Nursing Staff to hospital personnel.

Members of the graduate staff being oriented include: Left to right—front row: Faye Nicholson, Patricia Reed, Sandra Moore, Cecilia Molinaro, Margaret Tutarro. Back Row: Charles Hughes, Patricia Harner, Jacqueline Wood, Frances Barron, Ellen Hessley, Gladys Rapp, Anne Hand. Seated: Jean Jeschke, Clinical Instructor and Jessie Falconer, Head Nurse. ## SALK VACCINE PAYING OFF

As the 1956 polio season draws to an end, it becomes increasingly evident that the Salk vaccine has had amazing success.

The most recent report from the U. S. Public Health Service shows that there have been 11,503 cases of polio since the first of the year as against 21,751 cases for approximately the same time during 1955.

This striking ratio, which comes near being two to one, leads all experts to believe that someday the dread disease will be entirely wiped out.

Yet the job is far from finished.

For one thing, there are still children in some states who have not received the minimum amount of vaccine.

In hundreds of communities where the needs of youngsters have been met, it's time for others to line up for shots.

The misconception that adults are immune to polio and do not need vaccine is unfortunately widespread according to officials of the Public Health Service and the National Foundation for Infantile Paralysis.

Actually, authorities warn that polio rates have increased perceptibly in the 25-to-35 age bracket over the last 10 years.

This is an important reason why the foundation is launching a campaign to get everyone in the country to take shots.

The NFIP intends to spend 10 million dollars to purchase vaccine for families who cannot afford it.

Certainly the days of critical vaccine shortages are over. Today the goal is to eliminate the complacency of adults and parents who neglect to provide protection for themselves and their children.

## RESTAURANT MONTH

Restaurant owners and operators share a noble tradition of hospitality unrivaled by almost any other industry, it was stated here in the celebration locally of October as Restaurant Month.

Business historians trace the development of restaurants back to pre-historic times when nomads shared their food with wayfarers. The tradition still lives in the Near East where the man who has eaten salt with you is at the same time accepted as your friend. Later, as men became more settled and dependent upon harvest crops as well as domestic animals and game, those families living near traffic-ways provided food and lodging. The same spirit prevailed in colonial America where travelers were made welcome at your door.

In the growth of human culture and with the use of money came a change from earlier pattern. Certain men were able to provide food and lodging for guests as a business. But the feeling of need for hospitality continued.

Even today, good food and hospitality remain the chief assets of the successful restaurant. The competition of restaurants is expressed in the improvement of food and service. But the hospitality and air of warm good fellowship date back to the time when strangers first smiled a greeting one to the other.

## COMMUNITY CHEST NEEDS YOUR HELP

Ten welfare organizations are included in the agencies that benefit through the Community Chest. The present campaign in other words is "one for ten." The canvass for contributions is now under way, by civic-minded men and women who are undertaking a task that rightfully is a responsibility for all of us.

Greet them, not as persons seeking contributions in their own interest, but as fellow citizens laboring in a community cause which is for your interest no less than for theirs.

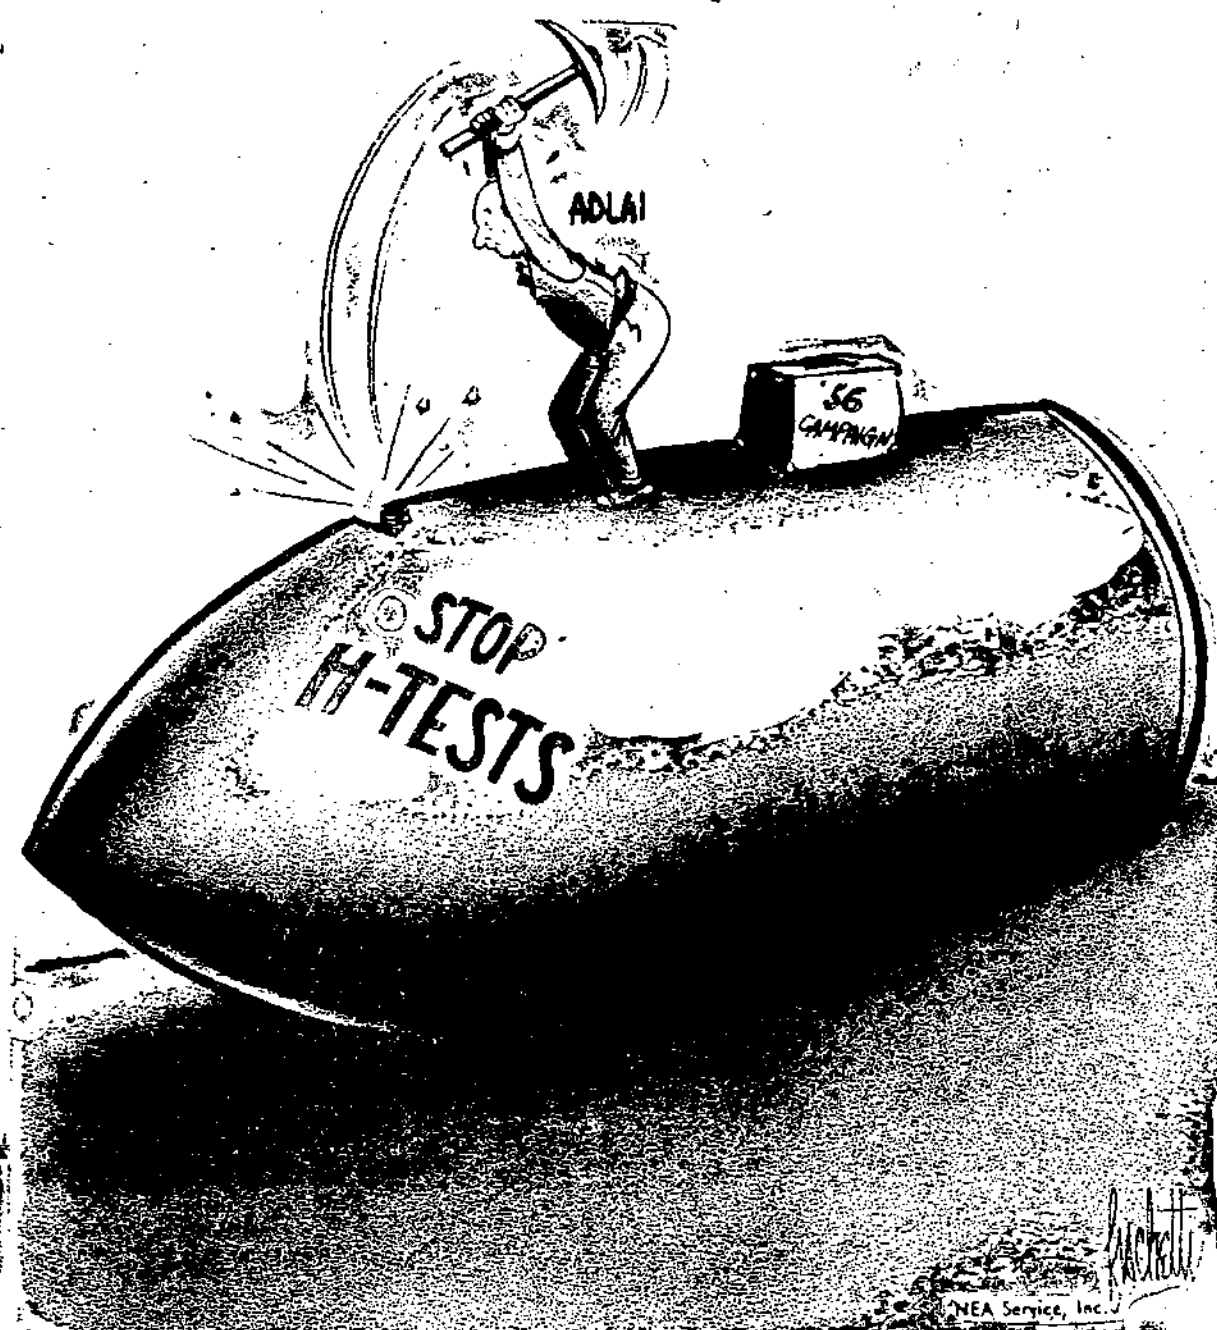

And finally—be as generous as your circumstances will permit.

## THOUGHTS FOR TODAY

## Odd Place To Dig for Pay Dirt

## Here and There

Father and Son Team: The October 15 issue of "The DeLuxe Trade-Wind," published by the DeLuxe Metal Furniture Co., of Warren, Division Royal Manufacturing Co., carries a story in the lower right-hand corner of page one with illustration that is of much interest to many in the community, and especially around the Elk club where one of the principals is a regular and popular visitor. It says: "The DeLuxe organization can boast of its father-and-son teams. An outstanding example of this is Robert E. and Howard Sandberg, who are shown in the picture. These two men represent more than 58 years of valuable service to DeLuxe. Bob, the father, joined our organization in April of 1926 as Factory Superintendent. Howard came to DeLuxe in 1928 as a laborer, and worked his way up to assembly foreman. On July 1, 1953, Howard became Factory Superintendent and Bob was placed in charge of Research and Development, where he has been re-

sponsible for many changes in our existing products, and development of new lines. The efforts of these men have contributed greatly to the success of this company over the years. Much of the fine quality in our products is a direct result of their activities."

A "Fifty Years Ago" item that should be of special interest to Captain and Mrs. Harry Burdese, new officials in charge of Salvation Army work in Warren. It pertains to the present citadel, and appeared in The Evening Times of October 19, 1906, and says: "The Salvation Army, which has been practically without a home since the deal for the Eysinger property fell through, have purchased a new home through the C. E. Hapgood & Co., Real Estate Agency. The lot purchased is the Weaver property fronting on Market street and Pennsylvania avenue. The formal papers were signed today and the consideration is private. The Army contemplates erecting a

fine three-story brick building on the Pennsylvania avenue site for use as a barracks and meeting place. Whether or not the structure will be erected this fall or next spring is a matter of conjecture and is a question not as yet decided by the Army. The property purchased is among the most valuable in the city and the money for its purchase was raised among the people of the town in a campaign for funds conducted by the hard-working Army officers, who are to be congratulated for their success."

Another item on the same page of timely interest today, fifty years after it appeared, has to do with the Carver Hotel: "For some time past it has been reported that the Carver House would be remodeled this fall as soon as the annex was completed. It has been decided, however, to make the annex four instead of three stories in height, and it is now being hastened to completion. Mr. Edwards, proprietor of the hotel, stated that the work of rebuilding the remainder of the hotel would be put off until spring, as workmen in sufficient numbers, could not be secured to get the job done this fall before bad weather comes. During the winter plans will be prepared, and with the coming of spring the work of rebuilding the main structure will be undertaken."

Europeans on Shipboard  
Sure Ike Will Be Winner

BY DOUGLAS LARSEN  
NEA Staff Correspondent

ABOARD THE ITALIA—An informal poll on who'll win the upcoming presidential election was taken aboard this luxury liner bound for England, France, and Germany. Here are the results:

Half the Americans think Stevenson will win. Half think Ike will repeat. Ninety per cent of the other passengers—mostly Germans—think Ike will win. Ten per cent give Stevenson an outside chance. Typical American reply to the poll: "I dunno. It'll be very close." Typical foreign passenger comment: "General Eisenhower is a great man and can't possibly be defeated."

BEFORE THE ITALIA, a Home Line ship, left New York harbor its genial Capt. Paul Thorndike, one of the veterans of the Atlantic run, was swamped by a record number of visitors from passengers and from relatives who had come aboard to see them off. All of them demanded the same information:

"Captain, would you please assure me that this ship has radar, that it is working, and that you know how to use it?"

He was forced to assign four officers to the ship's two radars to explain to passengers just how they worked, that they were in good shape, and that the crew knew how to use them.

That, of course, is what the Andrea Doria-Stockholm disaster did to the seagoing public.

A SILLY, corny joke has caught on among the passengers. Goes like this: Question: Why are Alabama elephants less dangerous than African elephants? Answer: Because their Tuscaloosa.

All you have to do is say Tuscaloosa to bring roars of laughter. The sea air does that to you.

IN LONDON, in November, the International Bartenders Association is holding a big pow-wow.

in an effort to standardize drink mixtures all over the world. Popular Otto Stetzelberg, the dean of seagoing bartenders, who is chief of that department on the Italia, is chairman of the Subcommittee on Standardization of the Martini for the November session.

He will recommend that the mixture for the "average dry" Martini be locked at five parts gin to one of vermouth. Explaining the IBA meeting, Otto says, "We want to have it so that when a person walks into a bar in Cairo, Rome, Hamburg and Tuscaloosa (big yuk) he'll get exactly the same drink as though he had ordered it in New York or Paris."

Otto is creator of a drink known all around Atlantic seagoing circles as "The Doctor." It's supposed to cure everything from seasickness to hangover. It consists of a dash of Angostura bitters and a quarter ounce each of brandy, vermouth, green creme de menthe and vodka.

ONE THING it's absolutely impossible to do aboard this ship is stay on a diet. The "light luncheon menu" for today, for example, is: herringbaapchen in mustard mayonnaise, chicken broth, baked oysters in browned butter, braised calf's tongue with asparagus and mushrooms, fluffy rice, hazel nut parfait and coffee.

A newsprint shortage prohibits listing the regular lunch. THIS FALL has set some kind of a record on the Atlantic for good weather and calm seas. The authority for this claim is the ship's medic, Dr. Dieter Wandrey. He gives the opinion on the basis of seasick statistics. "They've never been lower," he claims.

Less than one per cent of the passengers has been seasick—so far. But that includes three women who rushed to his office for treatment for it before the Italia had pulled away from the dock.

MR. AND MRS. JAMES R. SADLER

A candlelight ceremony performed in First Lutheran church on October 6 united in marriage Doris Elaine, daughter of Mr. and Mrs. Ralph Mason of Warren RD 2, and James R. Sadler, son of Mr. and Mrs. Bertrum Sadler, 605 Beech street, Warren.

The double ring service was read at 7:30 p. m., the Revs. F. B. Haer and V. Theodore Benson officiating in an all-white setting that featured altar vases of white pom poms and a basket of mixed flowers, with candelabra holding white tapers. Wedding music was played by Mrs. Dorothy Engstrom, with David Greenlund singing "O Perfect Love" by Barnby and "The Lord's Prayer" by Malotte prior to the ceremony.

Wearing imported chantilly lace and stehli tulle and carrying a cascade of tiny red roses, ivy, and red streamers, the bride was escorted and given in marriage by her father. Her gown was designed with scalloped scoop neckline and long sleeves in a fitted bodice, accented with sequins and pearls, and skirt of filmy tulle ruffles that fanned out to great fullness and ended in a chapel train. Her veil of imported illusion fell to her fingertips from a pearl crown.

Her sister, Phyllis, as maid of honor, wore ballet blue satin crystal, he basque bodice, banded with lace, the bouffant skirt floor length. A headband in matching color was of small leaves and held a brief veil. The bridesmaids, Sally Watt of Warren and Isabelle Chase of Youngsville, were similarly gowned in coral color. Each had a single strand of pearls, the bride's gift, and carried a cascade of white carnations and greens, with white streamers.

William Wolfe, Clarendon, was best man; ushers were Richard Masterson, Wesley Christensen of Clarendon, George Wollaston and Richard Bines.

Wearing pink carnations, mothers of the principals were attired in navy blue.

The reception for 150 guests followed immediately in the church social rooms, where the table was centered with a five-tiered cake, topped with bridal miniatures and encircled with springere and pom-poms. Lighted tapers and the bride's bouquet completed the appointments. Mrs. Veto Greto and Mrs. Richard Huckabone, cousins of the bride, poured; Mrs. Ben Huckabone served the cake; Mrs. Richard Masterson and Mrs. William Wolfe were aides; and Joanne Franklin managed the guest book.

Out of town guests were from Watertown, N. Y.; Clarion, Columbus, Corry, Spring Creek, Youngsville, Starbuck, Chandeliers Valley, Sheffield, Clarendon, and Russell. Returning October 20 from a wedding trip to Canada and northern New York state, the couple will reside in Pleasant township. For travel, the bride selected a pink corduroy suit, with white trim, black accessories and corsage of pink carnations.

Both Warren High graduates, the bride is employed by New Process Company, he, at Beers Atlantic Station.

Hostesses who honored the bride-elect were Mrs. Richard Masterson, Mrs. William Wolfe; Joanne Franklin and Phyllis Mason; Mrs. Mabel Munger, Mrs. Ray Klenck, aunts of the bride; Sally Watt and Phyllis Mason; Mrs. Bertrum Sadler, Mrs. Richard Masterson. The Bertrum Sadlers gave the rehearsal party.

## Catholic Women Planning Bazaar

The many weeks of preparation by Court Warren, Catholic Daughters of America, will end with the opening next Thursday, October 25 of their Bazaar and Carnival in St. Joseph's hall. The public is very cordially invited to attend.

With Christmas just two months from that date it will be a good time to look for that present for the person on your list who is "hard to buy for" or the child who "has everything" because here you will find aprons, stuffed toys, mittens, doll clothes, dolls, and linens. Also novelties of every description, jewelry, Christmas cards and ornaments, cards and gift-wrap; platters; foods—baked, canned and even raw vegetables and fruits; jams, jellies, candy and cake.

A booth with jewelry—earrings, pins, beads, bracelets and ornamental doo-dads. Religious articles such as pictures, plaques, statues and books will be found in another booth and would be very appropriate as a gift item.

For the delight of the small fry a Fish Pond will be furnished and for a thin dime they will "catch" a "fish" every time.

Refreshments will be served—a good old "5-cent cup of coffee" the ladies said and choice of homemade pie or cake.

Looks like a busy place on next Thursday, from 6:00 to 10:00 p. m. and also Friday, 4:30 to 10:00.

## Pupils Are Taken On Tour of Post Office at Ludlow

Ludlow—In observance of National Letter Writing Week, fifth and sixth grade students visited the local post office for a tour conducted by the postmaster, Millie Morelli.

The youngsters were given a thorough explanation of the functions of the postoffice department. All children had written letters to be mailed and were fascinated as they watched her stamp each letter to cancel the stamp. Zoning and postal charges, as well as money-orders and special delivery mail, all will be much clearer to these youngsters after such an experience. Miss Morelli also told them of the courtesies expected from a postmaster and the responsibilities of being a government employee.

Ideal Farms at Kane had a very interesting group of inspectors when the third and fourth grades of Ludlow visited the dairy last week. Mr. Long explained all phases of dairy work and the caring for the cattle. The children came back with big stories to tell of charging bulls against a fence, and the unsuccessful attempt to milk cows that were really "giant" cows. One little girl said she would really drink milk now because the cow asked her to do so because its big brown eyes cried because she hadn't been drinking milk. The boys were intrigued with the barns and all that hay and machinery. One child asked this correspondent if I had ever seen such a big clean place for cows. Mothers who drove to the farms were Mrs. Eugene Kalin, Mrs. Joe Kosinski, and Mrs. Walter Cox.

Mr. and Mrs. J. L. Vosburgh, Akron, O., and Mr. and Mrs. George Bolingbroke, Copley, O., were recent guests at the Olmsted residence.

Erie visitors of Mr. and Mrs. John G. Johnson have included Mr. and Mrs. Karl Ahnell, Mr. and Mrs. Hilmer Johnson, Mrs. Eric Collin, Mrs. Florence Luvas, Miss Olga Anderson, and Miss Ellen Anderson.

Wallace Hanson, son of Mr. and Mrs. William Hanson has very recently been transferred from Wichita, Kans., to Amarillo, Texas. He is a senior geologist in an office being set up in a new wildcat field by the Sohio Company. This represents a promotion. He and his family are pleasantly settled.

2 GALLONS OF GASOLINE NOW DO THE WORK 3 GALLONS DID IN 1925

Dramatic road tests prove that 2 gallons of the high quality gasoline you buy today do the work 3 gallons did in 1925. Yet today's gasoline costs about the same as it did then—only taxes have more than tripled. This shows how your progress and oil progress go hand in hand. And it is one reason we're proud to be part of the competitive industry that brings you this progress. This is your assurance that we'll continue to be on the job for you—every day.

## Bottled Gas Depot Explosion Results In Deaths of Six

Herrin, Ill. (AP)—A bottled gas depot was raked by explosions and fires Thursday that caused six deaths and injuries to seven others.

A mother, her 3-year-old son, and two other children perished in the blasts and two of the injured died today.

The explosion yesterday spread flames over an area nearly a block from the depot. Five homes were destroyed. Witnesses reported four or five separate explosions.

Of the injured doctors at Herrin Hospital said "there are a lot we won't be able to do anything for." Policeman Walter Lowe said six of the victims were in a yard near the depot when the first blast occurred. The flash fire covered them with flames, he said. Others injured were believed to have been in their homes.

The explosion occurred at the depot on the west side of this southern Illinois town from which cooking gas is distributed in small tanks to customers in Herrin and rural areas.

## Fallen Trees in Cook Forest To Be Removed

Harrisburg (AP)—The Forests and Waters Department today ordered the removal and cutting into logs of trees downed in Cook Forest State Park by a severe storm August 18.

Secretary Maurice K. Goddard said the wind and rain storm took "a heavy toll of the park's virgin timber." The park is located in Clinton, Forest and Jefferson counties and contains some of the last virgin white, pine and hemlock stands in the state.

Goddard ordered the felled trees removed and cut and sold as logs under the supervision of a department forester. He said the damaged trees constitute a serious fire threat.

The department also noted a chain reaction from wind thrown trees in several sections of the park.

The department for some time has proposed selective timber cutting. Several hundred pines were destroyed in the park's famous "Cathedral Area."

## THE GOP SAY THE DEMOCRATS HAVE NO ISSUES

### WE SAY

## We've Got Issues Aplenty

One of many myths in the GOP's home-made Book of Wonders is the fable that the Democratic Party has a shortage of issues.

How wishful can the Republican thinking get? Here is a quick check-list that scratches the surface of the Democratic list of issues—

- The farmers' loss of income. (The President says: "By golly, we're doing all we can for them.")
- The squeeze of small business. (Profits off more than 50% credit drying up, failures at a peak.)
- Bluff and bluster in foreign policy. ("Massive retaliation" and all that.)
- Red Russia's gain in the Middle East, in Indo-China, in nuclear power, in air and naval strength. (We are at peace, says the smug GOP, but the generals are uneasy.)
- The refusal to face up to the school crisis.
- The all-time-high cost of living.
- The scandalous record of misconduct in GOP officialdom, both Federal and state. (Dixon-Yates, Talbott, the Illinois mess.)
- The many pockets of depression that mock the GOP's "Prosperity!" cry.
- The abuse of taxing power in relieving the rich and forgetting the rest of us.

Is that enough for this week? Oh, let's make it an even dozen:

- How about the giveaways of power sites, of other national resources?
- How about the attempt to hold the minimum-wage increase to 90 cents? (Democrats forced it up to \$1.)
- How about the GOP resistance to a better Social Security deal for women and the disabled? (Democrats forced it through.)

No issues, eh?

## Pact Ends State of War Between Japan and Russia

Moscow, (AP)—Japan and the Soviet Union today signed a declaration ending the 11-year state of war between them.

Japanese Premier Ichiro Hatoyama and Soviet Premier Nikolai Bulganin signed the end-of-war declaration and a trade protocol after more than 16 months of off-and-on negotiations.

Practically the entire Presidium of the Soviet government and its ruling Communist party were ranged behind them in the klieg-lit conference room of the Grand Kremlin Palace as they attached their signatures.

The declaration ending the state of war deferred all discussions on Japan's territorial claims to a later date. Japan failed to win the immediate return of Soviet-occupied Habomai and Shikotan Islands north of Japan.

## New Tax Burden Placed On Residents of France

Paris, (AP)—The French taxpayer, who already considers himself the hardest hit in the world, was faced today with tax increases on nearly everything he gets any fun out of—from home-distilled applejack to hunting dogs.

Premier Guy Mollet's Cabinet wants to spend a record four trillion francs—about \$11,400,000,000—in 1957 a budget swollen by the cost of putting down the nationalist rebellion in Algeria. It shows a deficit—another record—of more than one trillion francs—about \$2,960,000,000.

The deficit will be even bigger if the National Assembly fails to approve the tax increases.

## Record Set at Sale of Registered Holsteins

Harrisburg (AP)—An average of \$526 a head was paid yesterday for 69 animals sold at the annual Pennsylvania Holstein - Friesian Association sale here.

The sale grossed \$36,317 with the average price per head believed to be one of the highest for such a sale in the nation this year. Top price of \$740 was paid by the Paradise School for Boys, at Abbotstown, Adams County.

Represented by the Rev. Louis S. Dougherty, the school also was the heaviest buyer at the sale, taking nine head of proven purebred animals to build up the school dairy herd.

## Hit and Run Driver Is Serving Term in Prison

Philadelphia (AP)—A 24-year-old hit-and-run driver, the first in the state to be convicted of murder for the auto death of a pedestrian, today began serving a term of 18 months to five years in Eastern State Penitentiary.

Donald Sanford of Philadelphia pleaded guilty to second degree murder in the death of Henry Grencowski, 64, also of Philadelphia, last February. Judge Vincent A. Carroll ruled Sanford must pay funeral expenses of \$1,100 to the victim's family.

The judge said it was the first such conviction in the state's legal history.

## STATE EMPLOYEES MEET

Harrisburg (AP)—The State Employees Council representing some 15,000 commonwealth workers, will meet here tomorrow and Sunday to discuss its stand on proposed legislation and other state-wide matters. The union group is expected to spend considerable time mapping its position on legislative proposals for health and welfare plans for state workers. Other matters on a proposed 12-point legislative program include statewide civil service coverage, grievance procedures and improved working conditions.

Without referring to Stevenson, Strauss said:

"Exposure to radioactivity, as a vague, unproven danger to generations yet unborn, must be weighed against the more immediate and definitely greater dangers of defeat and perhaps of obliteration at the hands of an enemy who possesses nuclear weapons of mass destruction and who might have no compunction about using such weapons if he thought we were too weak to defend ourselves and retaliate in kind."

## Haluska Claims Refuted By Government Witness

Pittsburgh (AP)—A physician denies statements attributed to State Senator John J. Haluska during a speech on the Senate floor in which he claimed his sister was cured of cancer by the Hoxsey method.

Dr. Josiah Eisman made the denial in testifying for the government yesterday in U. S. District Court. The government seeks to destroy a half million pills seized at the Hoxsey Cancer Clinic in Portage (Cambria County).

Government attorneys have called a long series of medical experts to testify in an attempt to prove that the pills were misbranded as being effective in the treatment of cancer.

The Hoxsey clinic at Portage is administered by Senator Haluska and uses a cancer treatment method developed by Harry M. Hoxsey, a Dallas, Texas, naturopath.

The trial is in recess until Monday.

## NIXON

Wilmington, Del. (AP)—Vice President Nixon completed today 25,000 miles of campaign travel. He then will take a weekend rest.

With speeches here today and in Baltimore tonight, he completes his second major cross-country swing. Monday he starts a third, more concentrated tour.

Nixon's theme for his talks today is the same he has been using in most of his addresses in 14 states during the past 10 days—his view that Adlai Stevenson "just isn't in the same league" as President Eisenhower when it comes to leadership in international or domestic affairs.

In New York last night Nixon took time out from the campaign trail to make the avowedly non-political main address at the annual Alfred E. Smith Memorial Dinner. Smith, former New York governor, was the 1928 Democratic presidential nominee.

## BURMA INVASION

Rangoon, Burma (AP)—Chinese Communist troops from Tibet who entered Burma through the nation's northernmost mountain passes today were reported to have moved farther south. ## Plan Children's Party for Halloween

BY KAY SHERWOOD  
NEA Staff Writer

PLANNING a Halloween party for the children? You are, if, like me, you want to help your grammar school debutante repay some of her mounting social obligations.

The second-grade social whirl sets a dizzy pace with a birthday party today, another tomorrow and always—but always—new school friends to be entertained.

Unlike some brave and courageous mothers who entertain the whole class at one time, I prefer to space smaller parties at logical holiday times throughout the year. About eight seven- and eight-year-olds are all I can cope with at one time.

HALLOWEEN is a "natural." A gay, party-decorated table from which food and favors can be dispensed borrows its theme from traditional Halloween motifs. The old-fashioned bobbing for apples, peanut races and variations on blindman's buff haven't lost their appeal for children.

With any luck, the weather will be pleasant enough to permit an outdoor game or two for running off steam.

A pumpkin balloon centerpiece for the table is easy to make and sets a jolly mood for the party.

Here's how: Inflate a large, orange balloon. Make features of colored plastic tape (black for eyes and mouth, yellow for pupils and teeth). Easiest way

## Game and Band Capers Will Provide Complete Afternoon of Warren vs. Ridgway Spectacle

Weather permitting, the game tomorrow afternoon between the Ridgway Elkers and Dragons should be quite a spectacle during the entire contest.

Besides a ripsporting contest between two elevens, both of whom will be "up" for the contest, the Ridgway and Dragon bands will be on hand for half-time performances.

The Blue and White snappy marching unit will offer an election parody of "Remocrats" and "Depublicans" and the Elkers unit is keeping its capers secret until the half.

Another fact which is bound to keep the game interesting is that the Ridgway coach is Joe Massey who formerly coached at Youngville and will want to provide his best for home area fans.

Game time at Memorial Field is 1:30 p. m.

## Hoopie Reveals Vast Cunning In Selecting Rutgers To Win

By MAJOR AMOS B. HOOPLE  
Father of the Center Rush

Hak-kaff! Dash it all! Football results have been so affected by the oratorical winds generated by the various candidates that your humble correspondent has been forced to adopt a new system.

New systems are to be taken with a grain of salt, so I am making a test run this week with only one game of the group: The game is Rutgers versus Boston College, and according to the system Rutgers should win by a score of 20 to 13.

Now I do not often reveal my mathematical formulas, but in this case I'm giving my millions of readers a treat and disclosing how I arrive at that score.

Rutgers was founded in 1766 and Boston College in 1863. Rutgers has 14,857 students, Boston

College 6,472. Rutgers has 850 teachers, Boston College 225. Subtract 1,766 from 1863 and you get 97. Take the last digit, 7, which you add to the third and fourth digits in the number of Rutgers students—plus 7 plus 8 plus 5 equals 20.

To get Boston College's score you subtract the number of teachers there, 225, from those at Rutgers 850, and the result is 625. Adding these three digits we arrive at the figure 13. Thus the score will be 20 to 13.

I didn't use this system in the rest of the games because adding and subtracting always gave me a headache.

The forecast:  
Rutgers 20, Boston College 13.  
Syracuse 14, Army 7.  
Colgate 14, Princeton 7.  
Harvard 20, Columbia 7.

Yale 27, Cornell 6.

## Decision Due Today On Moving Senators To City on the Coast

Washington, (P)—Calvin Griffith's effort to move the Washington Senators from the nation's capital comes up for a directors' vote today.

The five-man board of directors meets late today to consider offers the club president says he has received from Los Angeles, San Francisco, Minneapolis and Louisville.

The Senators, finishing deep in the second division, drew smaller crowds than any other big league team in the last two years, and Griffith yearns for greener pastures. He leans toward Los Angeles, and he and other heirs of the late Clark Griffith hold a controlling interest in the club's stock.

Reports are that a majority of the board will swing along with Griffith, but H. Gabriel Murphy, largest single stockholder with 40 per cent, vigorously opposes any shift. Murphy has threatened court action to prevent a transfer.

Six of the eight American League clubowners must approve any move. And that may well be a stumbling block.

## "Silent Shoe" Hits Mark of \$2,000,000 In Riding Winners

Camden, N. J. (P)—Willie Shoemaker is the first jockey in racing history to pilot horses to two million dollars in purse money in one year.

"Silent Shoe" set the mark yesterday at Garden State Park by riding Ada L. Rice's Beautillion to victory in the sixth race, worth \$3,245 to the winner. The winning ride put Shoemaker's 1956 purse winnings at \$2,001,165.

Shoemaker set the previous money winning mark of \$1,876,760 in 1954. He also won the honor in 1951 and 1953. His total purse earnings for seven years in the saddle is \$11,190,240.

The little Texan, locked in a battle with Willie Hartack for national riding honors, didn't realize he was approaching the 2 million mark. When told he could hit the goal during yesterday's action, he said: "Am I that close?"

Only twice since he began riding in 1949 have Shoemaker's horses won less than a million dollars. He was in the millionaire class every year since 1951.

## Not just one...but two new Fords!

The longer, lower, heavier new kind of Ford is the only low-priced car to come in 2 big sizes!

The new Sculptured look says "Tomorrow." It's as much as 9 inches longer! As much as 4 inches lower! But figures merely hint at the '57 Ford's new sculptured look. For the yacht-like beauty of this car is better measured in "ahs" and "ohs" than in inches.

And this is a beauty that goes deeper than the exterior finish. The body, for example, is far and away the strongest that Ford's ever made. It's the quietest, too—with the most complete sound-proofing ever in Ford's field.

The new "Inner Ford" starts with the new Full-Gradle Chassis. The new contoured frame has side rails that are a foot wider... and it's 27% more rigid. New front and rear suspensions—bring you added comfort and driving ease.

The new Silver Anniversary Ford V-8's. This year you can take your pick of a variety of Silver Anniversary V-8's, with horsepower to suit every need. Or if you prefer your sizzle in a six, sample the new Mileage Maker Six.

The first low-priced car of its size ever built!

## Turner Goes Against Joey Giambra Tonight

New York, (P)—Crowd-pleasing Gil Turner, who has made almost as many television appearances as Rin Tin Tin, fights in front of the cameras again tonight as a 3-1 underdog against streaking Joey Giambra.

This could be the last video shot in a long time for the 26-year-old Turner unless he finds his way back on the winning path. The muscular Philadelphia dropped his last three fights and his fighting rating has plummeted.

Gil has had some 30 TV shots and usually pleased the fans with his windmill attack.

NBC will broadcast and telecast at 9 p. m., EST.

Light-heavyweight Alonzo Johnson, Braddock, Pa., made the semifinals with a decision over D. Robinson, Montgomery, Ala. Johnson meets Orville Pitts, Wisconsin NCAA titlist in a semi-final bout tonight.

## TOP SCORER

Philadelphia (P)—Bradley, St. Vincent College halfback, scored three touchdowns last Saturday to take over the lead in the Pennsylvania college football scoring race from Bob McFarland of Indiana State Teachers College. McFarland is tied for second place with Bill White of Westminster College who has romped for six TDs in only three games.

## New Scoring System for Boxing in Pennsylvania

Philadelphia (P)—A new scoring system for boxing bouts will go into effect in Pennsylvania Nov. 1.

The State Boxing Commission announced yesterday that bouts will be judged on a point basis under the new plan. Five points go to the winner of each round, with four or fewer to his opponent.

Under the new plan, a boxer guilty of a foul loses four points. His opponent gets five and the guilty boxer gets one point.

The plan brings Pennsylvania into line with other member states of the National Boxing Association, which adopted the system at its last convention.

## Sturdivant and Harshman Leading Major Hitters

New York (P)—Tom Sturdivant of the New York Yankees and Jack Harshman of the Chicago White Sox, both converted infielders, were the leading hitters among major league pitchers in 1956. Sturdivant had the highest batting average, .313 while Harshman walloped the most home runs, six, and drove in the most runs, 19.

Murray Dickson, who saw service with Philadelphia and St. Louis was the top batter among National League moundsmen with a batting average of .285.

## Pressed Powder Good For Daily Touch-Ups

### Perfect Aid For Pocketbook

BY ALICIA HART  
NEA Beauty Editor

PRESSED powder is rapidly becoming an indispensable aid to well-groomed women. It's not adequate for every use, but it's perfect for the pocketbook. It can't open and spill powder all through other belongings and it doesn't dust up when opened in public. It also doesn't put sprays of powder on the shoulders and collar. For all of these reasons, many women find it the perfect away-from-home powder.

New from a well-known manufacturer is a pressed powder compact, complete with mirror. The powder is a combination of powder, creamy foundation and an ingredient designed to hold moisture in the skin. The maker has added his popular scent to the powder.

To go with it, the manufacturer offers an indelible lipstick. These two come together in a special presentation, in harmonizing colors.

New for fall is a pressed powder compact and lipstick. The maker uses his popular fragrance in the powder.

### METHODIST HOME NOTES

Margaret H. McBride

October 10th was the end of our beautiful flowers here, when our first killing frost descended "like a thief in the night," and today the "Friendship Garden" is looking woeful, while the big circle in front is completely denuded of all those gorgeous zinnias, back to its winter dress of evergreens.

Last week, Mrs. Blanche Johnston spent a most delightful day, when her sister-in-law, Mrs. Arthur McCombs, from Indianapolis, called for her here and took her over to spend the day in Edinboro with another sister-in-law, Mrs. Nellie McCombs. On Sunday, Mrs. Johnston had as guests her nephew, Ross J. McCombs and his family, from Findley Lake, N. Y.

Mrs. Grace Cheney, formerly of Little's Corners, spent Wednesday with her old friend, Mrs. Timmie Smith. She is now living with a daughter in Cortland, O., and has been visiting her niece and sister in Meadville. Mrs. Adelaide Rogers from Little's Corners was another guest of Mrs. Smith on Tuesday, who has been in New Jersey with a daughter until she came back to look after her home before returning there for the winter. Mrs. Cheney renewed her acquaintance with an old friend, Mrs. Eva Roberts, who had known her fifty years ago, in Cambridge Springs. It is interesting to note that the two girls were baptized at the same time in French Creek!

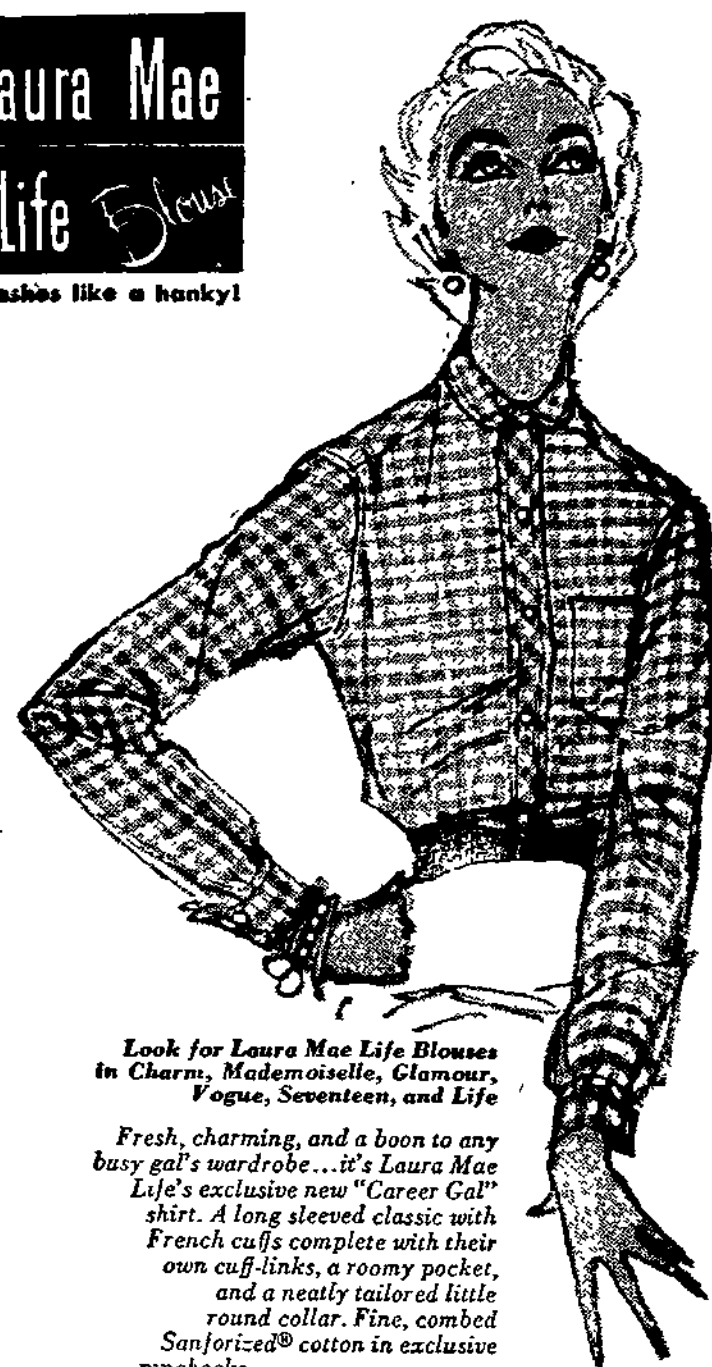

Miss Grace Mook's friends, Mrs. V. W. Kirberger and Mrs. Samuel Smedley, from Warren were here last Monday to spend the day with her, and Lloyd and Mary Morneweck from Clark, Pa., a son of Mrs. Alice Morneweck, with Jackie and Ruth Johnson, her step-grandchildren, were here to
